

K-LOVE radio serves me as a resident of my local community. It is important to my family and many others. If it were displaced by an LPFM broadcaster it would be missed for the good it provides. K-LOVE provides inspiration for good in the community by encouraging presentations, balanced news, humor, uplifting commentary and music appropriate for all ages. That kind of broadcasting should be in the public interest because it fosters good attitudes at home and at work. K-LOVE is a good thing. It has listeners who actually support its existence with their own finances.
